AirPennNet: Using wireless access on campus

AirPennNet is Penn's campus-wide wireless network. Faculty, staff, students and guests can follow the instructions here to get their devices connected to AirPennNet:

Eduroam: Wireless access at participating institutions

Penn is a participant in eduroam, a secure wireless service provided by participating educational institutions worldwide. If interested in using this service when available at other universities, it must be set up on your devices in advance before you leave campus. More details and setup instructions can be found here:
