

Copying Over Your Panopto/Class Recordings Videos for Each New Semester

Taylor Kahny - 2021-05-28 - Canvas

Please note: This solution is for courses that have videos embedded on various pages and modules throughout their Canvas sites. However, if you do not have your videos embedded anywhere and you are directly sending students to the Class Recordings tab to view their video content each semester, please contact servicedesk@nursing.upenn.edu with this simple video roll over request.

If you have ever saved video content to the Class Recordings/Panopto tab in your Canvas site, you may have noticed that the content does not copy over to a new semester or future iterations of the course automatically. Although you can request to have your content copied over each semester, it's important to note that you will need to take an additional step for the video content to appear in the newest version of the Canvas site.

If your video content is embedded on various pages, stored under modules, and dispersed throughout the site in a similar manner, the easiest, most efficient way to ensure your new students can access the video content is through the Class Recordings Settings tab of a previous Canvas site containing the videos. When you click on the tab, you'll first need to select the gear icon shown here:

The screenshot shows the Panopto interface for a folder named "Taylor's Mock-up Course". On the left is a navigation menu with options like Home, Announcements, Discussions, Assignments, Modules, Zoom, Blue Jeans, Quizzes, Grades, People, Pages, Piazza, Perusall, and Class Recordings. The main area shows a search bar, a "Create" button, and a gear icon (Settings) highlighted with a red box. Below the folder name, there are sorting options and a list of video items: "Recurring Meeting" (2 months ago), "BlueJeans Chapter Streams" (5 months ago), and "Preparing a Course for a New Semester - Moderate This Quiz" (6 months ago).

Then, within the Share section of Settings, you can search and invite new groups to both

Who has access:

Specific people
Only specific users and groups can

- Taylor's Mock-up Course::Creator
- Taylor's Mock-up Course::Viewer
- Taylor Kahny

Invite people:

Enter people, groups, or usernames...

- Can view
- Can create
- Can publish

view and create content:

To do this, type in NURS and the associated course number and year. For example, if the course is N659 and I want to add the Spring 2021A population to a Fall 2020C course, I'll type in NURS 659 2021A to add both the Creator and Viewer groups:

NURS 659-101 2020C Clinical Practicum: PrimaryCare With Young Families [Learn more](#)

Once you complete these steps, the newest group of students will then have access to all of the files found in that specific Class Recordings folder (In the example above, N659 2021A students will have access to N659 2020C videos found in the tab).
