# LastPass Password Vault

Taylor Kahny - 2019-01-28 - Data Privacy & Security

All members of the Penn community have access to LastPass Premium password management, a benefit offered through partnership between the University and LastPass.

**What is LastPass?**

LastPass is a secure password manager that enables you to create one master password  to protect and manage different, complex passwords across multiple accounts. You will only need to save a password in LastPass once, and the system will autofill your logins upon sign-in.

**LastPass offers:**

- A secure vault for storage of your passwords
- Autofill for logins upon sign-in
- The creation of stronger and more varied passwords for your accounts
- A random password generator
- Password auditing tools

For more information about LastPass and other security tools and resources, visit the Penn Nursing ITS website:

https://www.nursing.upenn.edu/its/resources/data-privacy-security/
