Poll Everywhere

Erin Marshall - 2023-01-03 - Other Tools

About Poll Everywhere

Poll Everywhere helps you create visually engaging surveys and questionnaires with results that update in real-time. Increase audience engagement during presentations.

Features

- Insert in PowerPoint , Keynote , Google Slides
- Responses from smart phones, Twitter
- Customize results (charts, bar graphs, etc)
- Analytics reports

How Can I use Poll Everywhere?

- Engage large medical classes
- Teach diagnosis through Q & A
- In flipped/hybrid classrooms
- For online learning

Faculty: Get Started

Important: We **no longer support Turning Point** student clickers**.** Please contact the service desk and we will create a Poll Everywhere account for you.

1. Email the Service Desk at servicedesk@nursing.upenn.edu. We will create a Poll Everywhere business account for you. *Note: If you have already created a free, personal account, we can upgrade your existing account.*
2. Once your account has been created, visit the Poll Everywhere login page and enter the username and password ITS has created for you.
3. Click the “Create” button in the upper left corner to create a new poll.
4. Using the Canvas integration? Follow the instructions here to sync your class roster.

Students: Get Started

You will receive specific instructions from your instructor regarding your participation in Poll Everywhere polls in your course.

An **account is not required** in order for you to participate in polls anonymously. However, some faculty prefer students to use a registered account for attendance or class participation tracking purposes. If this is the case; no action is required on your part. **You will receive a link to register.**
