REDCap

Erin Marshall - 2025-12-09 - [Research](#)

About REDCap

REDCap is an online database and survey platform available to all Penn Nursing affiliated users.

You can access REDCap by logging in at <https://redcap.nursing.upenn.edu> using your **pennkey and pennkey password**.

If you cannot login, please confirm your School of Nursing affiliation is active.

Annual Training Requirement

If you are a collaborator on any project tagged as containing PHI, and have not taken the **“Protecting Patient Information (HIPAA)”** training through Workday Learning or KnowledgeLink within the last year, you will not be able to log in to REDCap at all. Please always ensure to accurately tag PHI-containing studies appropriately.

While REDCap users will be locked out without having completed the training, all research faculty, staff and students working with PHI are required to complete the training annually, regardless of using REDCap.

To access the training, please use this [link](#).

Please check the Frequently Asked Questions at <https://redcap.nursing.upenn.edu/index.php> before contacting us at REDCap-Support@nursing.upenn.edu.
