## School of Nursing's VPN

Jen Sommerfeldt - 2024-04-05 - [Wireless Connectivity](#)

## School of Nursing's VPN

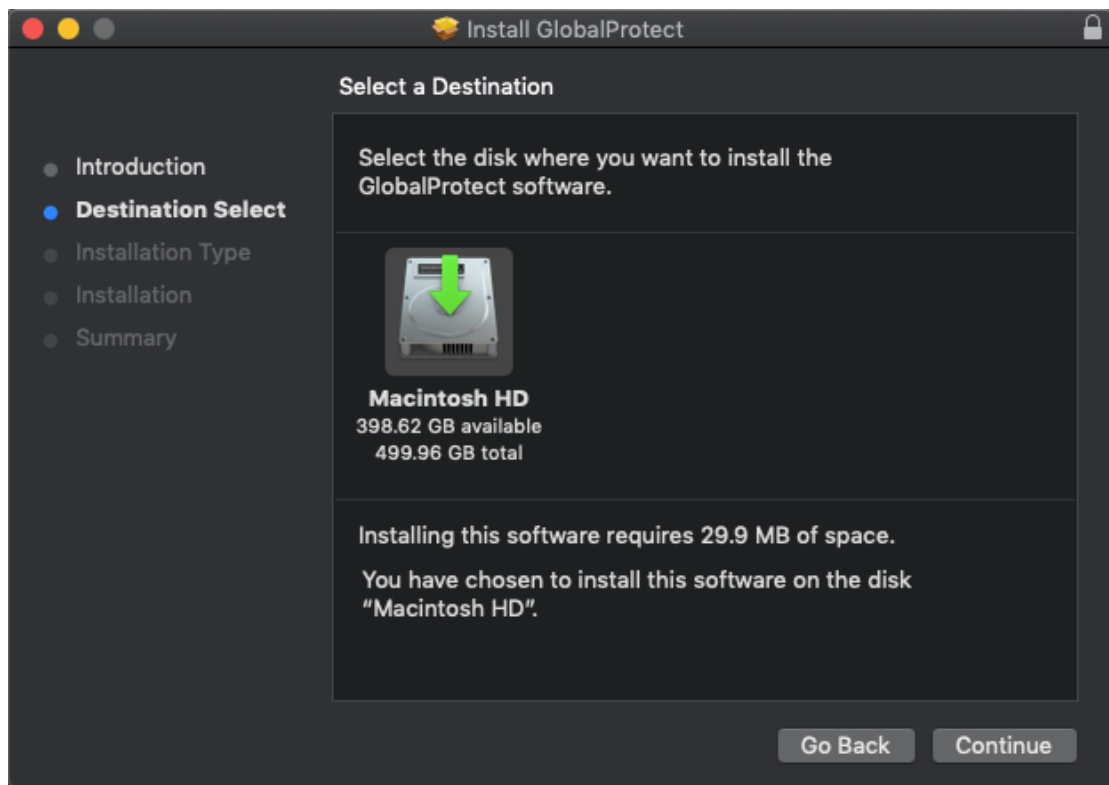

### Mac VPN Installation Instructions:

Browse to the website <https://vpn.nursing.upenn.edu> to download the application.

Click on Download Mac 32/64 bit GlobalProtect agent.

This will download a file named GlobalProtect.pkg; double click the file to begin downloading.

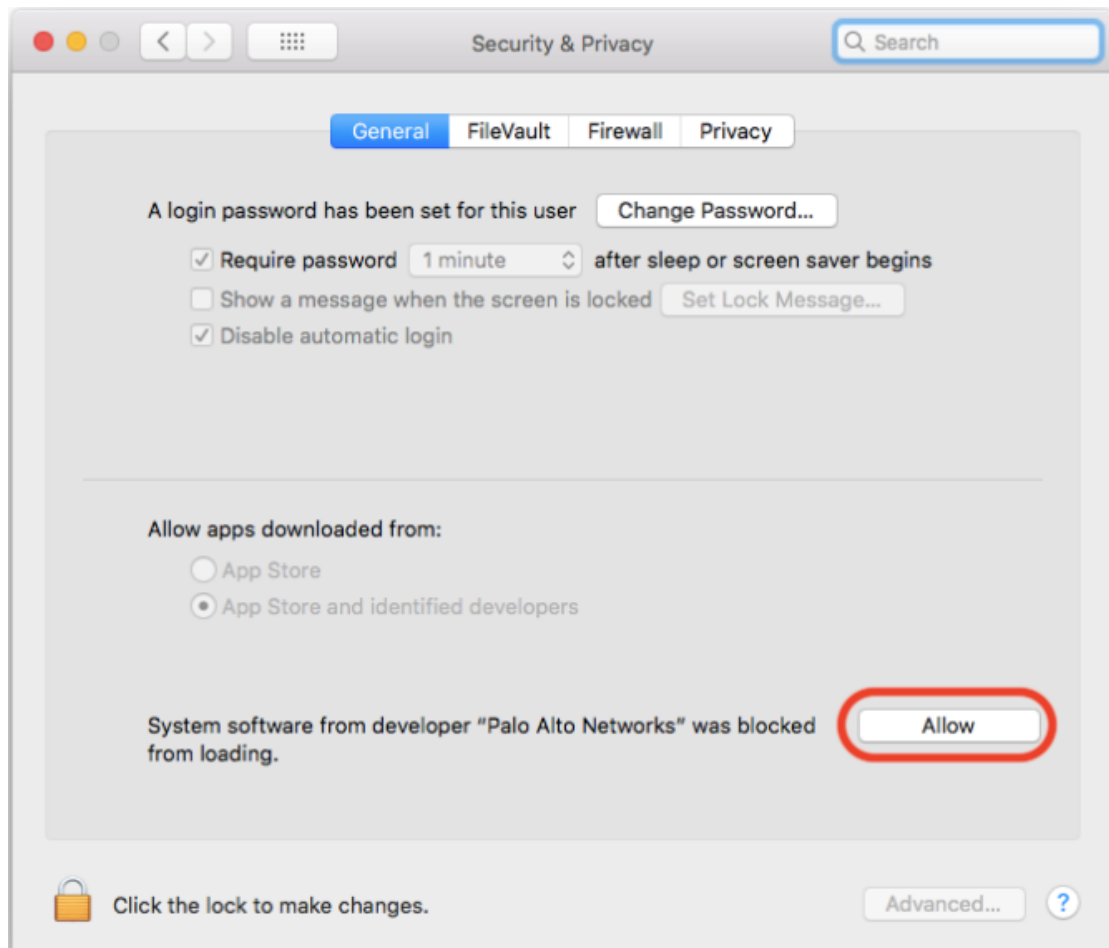

Select "Continue" to proceed through the installation.

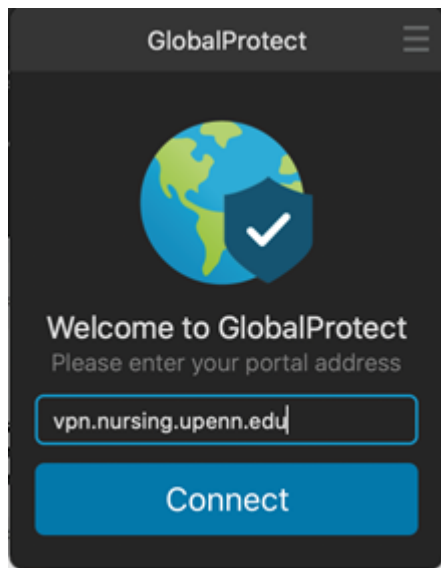

You may need to approve kernel extensions in order for the GlobalProtect VPN client to function normally. If this happens, you will be prompted with a dialog box like the one below. Select "Open Security Preferences."

This will open your System Preferences dialog box. At the bottom of the Dialog box you will see that what you are downloading was blocked from loading. Please select Allow.

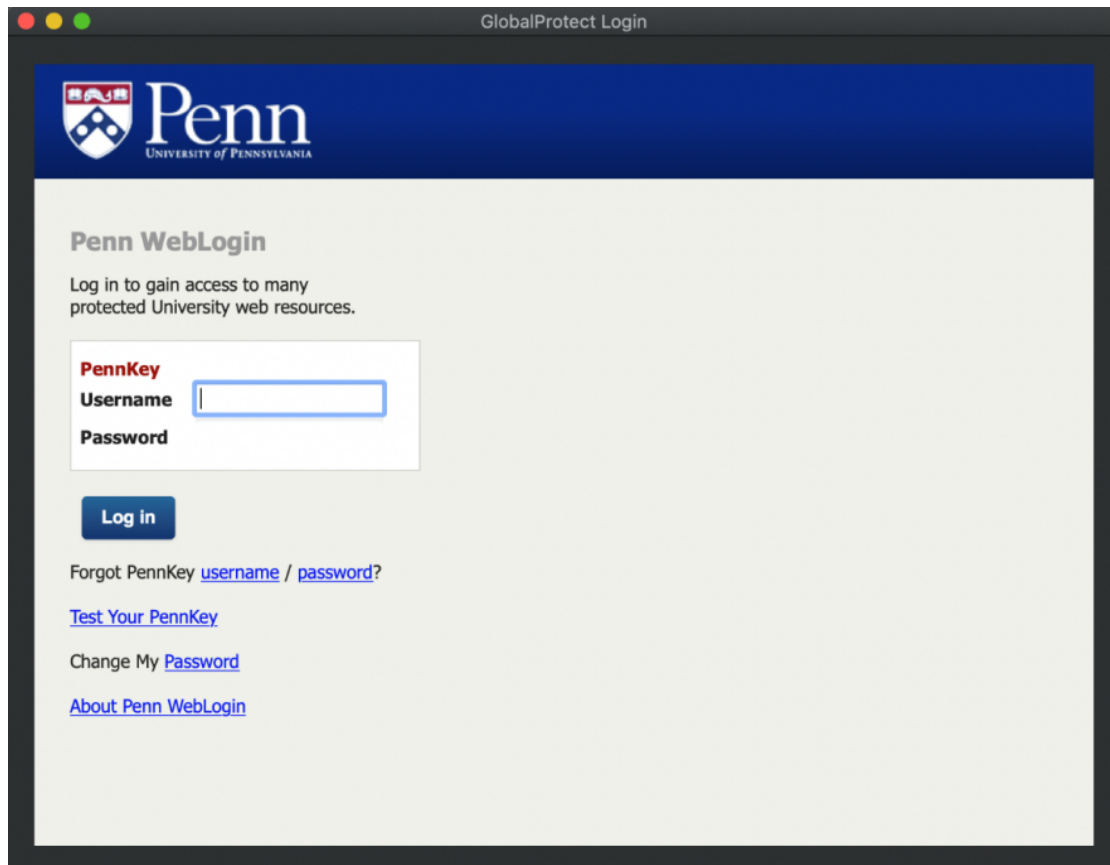

Once the application is installed you will see an icon appear in the top right of your screen and the icon will have a picture of a globe. When you open the application, you will need to provide the Portal address:

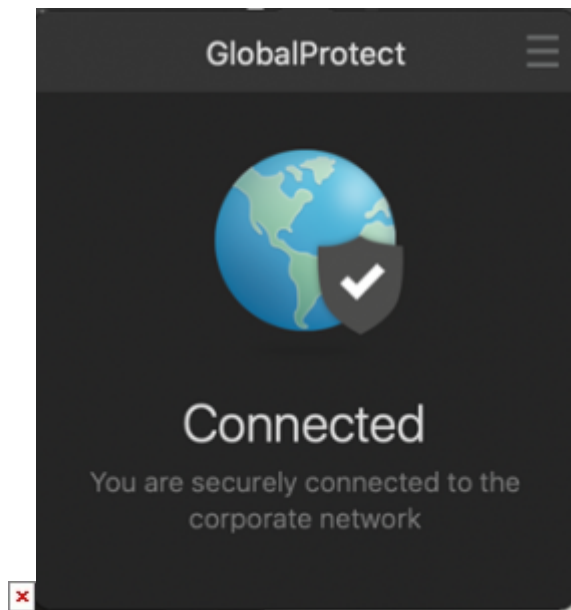

You will then click on Connect.

Clicking on the Connect button will cause a browser window to open and prompt you for your PennKey credentials through the usual WebLogin screen.

After entering your username and password you should then see the usual Two-Step Verification screen:

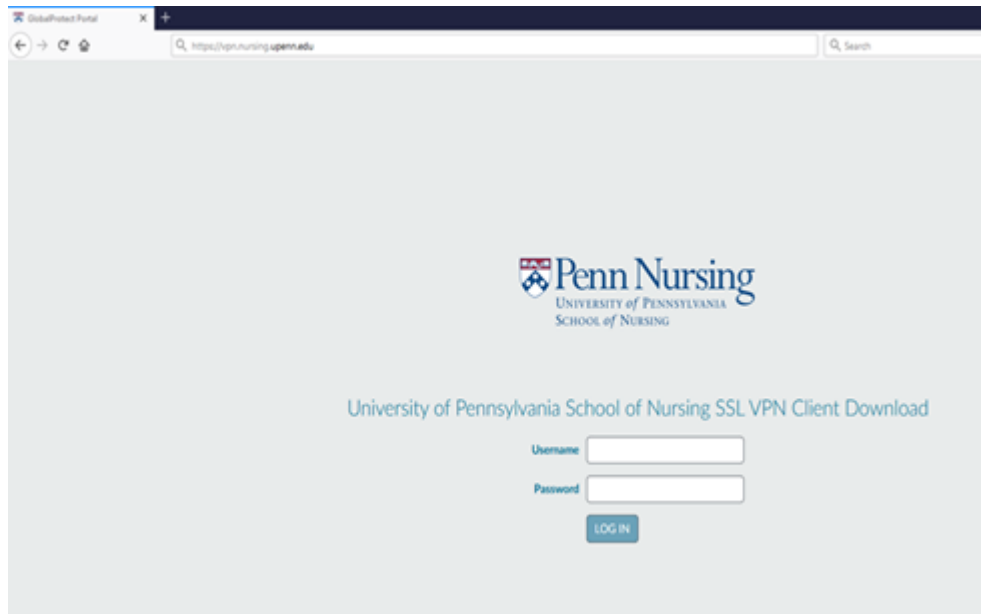

---

### Windows VPN Installation Instructions:

In the address bar of your preferred browser, type in the following address:

<https://vpn.nursing.upenn.edu>

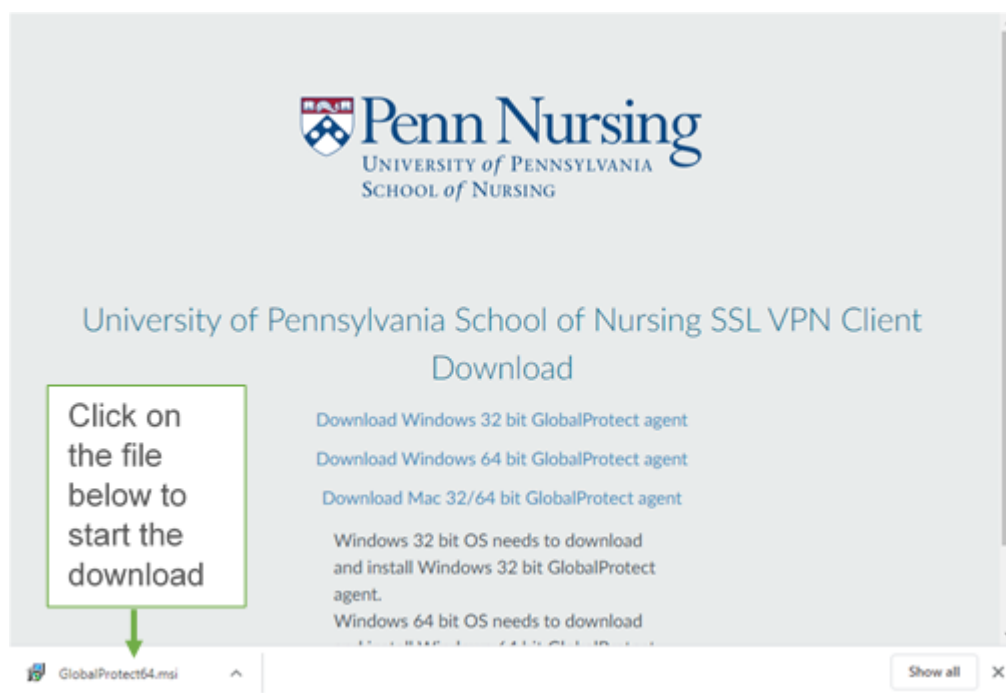

Enter your School of Nursing username & password

A screenshot of a web browser window showing the login page for the University of Pennsylvania School of Nursing. The browser's address bar displays "https://pennnursing.upenn.edu". The page features the Penn Nursing logo at the top center. Below the logo, the text "University of Pennsylvania School of Nursing SSL VPN Client Download" is displayed. Underneath this text are two input fields: "Username" and "Password", each with a corresponding text box. A "LOG IN" button is positioned below the password field.

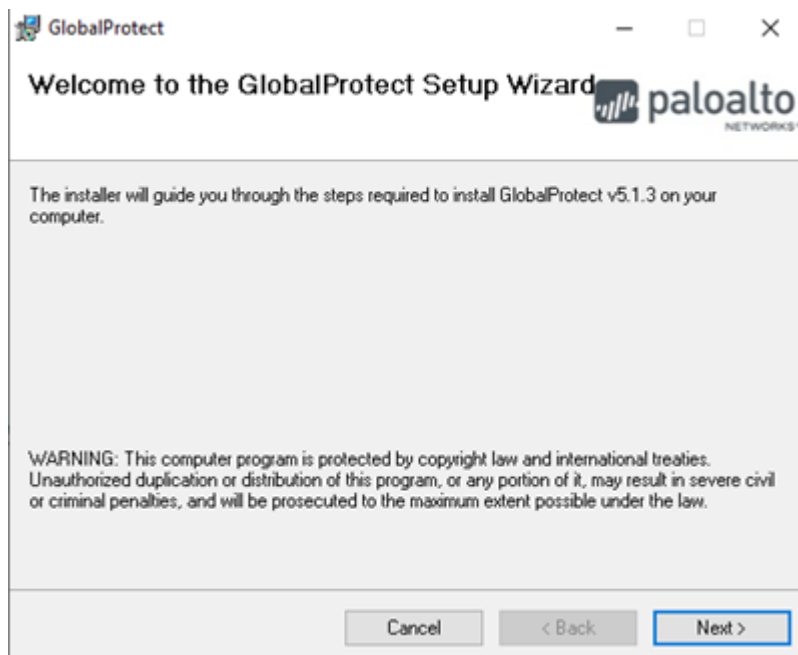

You will now see the screen below:

Select Download Windows 64 bit GlobalProtect agent

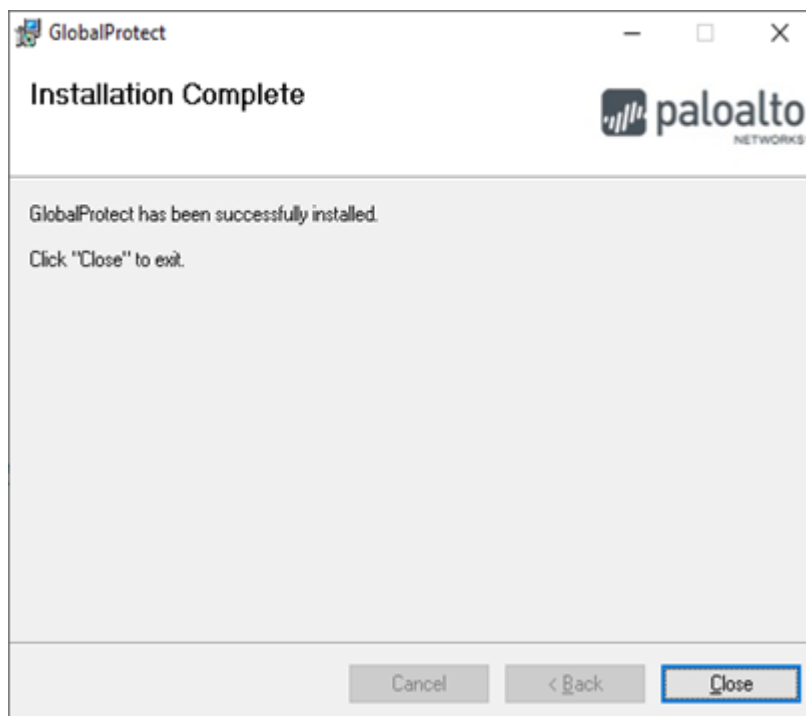

Once the download finishes, you will now see the screen below

Click Next and accept the defaults, hitting Next at each screen

Once the installation completes, click Close

You will now see the following screen, type in [vpn.nursing.upenn.edu](https://vpn.nursing.upenn.edu) and click Connect

GlobalProtect 

## Welcome to GlobalProtect

Please enter your portal address

Connect

Clicking on the Connect button will cause a browser window to open and prompt you for your PennKey credentials through the usual WebLogin screen.

GlobalProtect Login

### Penn WebLogin

Log in to gain access to many protected University web resources.
