School of Nursing's VPN

Mac VPN Installation Instructions:

Browse to the website https://vpn.nursing.upenn.edu to download the application.

Click on Download Mac 32/64 bit GlobalProtect agent.

This will download a file named GlobalProtect.pkg; double click the file to begin downloading.

Select "Continue" to proceed through the installation.

You may need to approve kernel extensions in order for the GlobalProtect VPN client to function normally. If this happens, you will be prompted with a dialog box like the one below. Select "Open Security Preferences."

<u> </u>	System Extension Blocked
0	A program tried to load new system extension(s) signed by "Palo Alto Networks". If you want to enable these extensions, open Security & Privacy System Preferences.
	Open Security Preferences OK

This will open your System Preferences dialog box. At the bottom of the Dialog box you will see that what you are downloading was blocked from loading. Please select Allow.
