

Meet the New Instructional Designer

2021-11-30 - Maxine Wicks - Canvas

Maxine Wicks is thrilled to be the newest member of the Instructional Design and Learning Technologies team, with Erin Marshall and Anthony Auge. From the Fall of 2018 to her start in ITS at the beginning of November, Maxine was an Administrative Coordinator for the Family and Community Health Department at Nursing, where she supported the Family, Pediatric, Psychiatric Mental Health, and Gerontology Nurse Practitioner programs. Her time in FCH gave her a huge appreciation for the work done here at Nursing.

Her accomplishments during her time in FCH include editing and proofreading documents for Dr. Bridgette Brawner's R01, Project GOLD 2.0, working with faculty to adapt their Canvas sites for the pandemic, and updating and maintaining the FCH Sharepoint website. Maxine is a proud graduate of Bryn Mawr College where she earned her degree with Honors in Creative Writing and German. Her hobbies include hiking in the Wissahickon Valley, baking while pretending she's on the Great British Bake Off, and cuddling with her very round and floppy cat, lovingly nicknamed The Pudding.
